

VISITMANTUA

## The private rooms of Isabella d'Este

Isabella d'Este, Marchioness of Mantua, is one of the most notorious women in history, and her spirit is still living within her private rooms.

Although most of Isabella's art collection has been dispersed amongst the most important museums in the world, some pieces still remain in Mantua. And the fine frescoes, the precious wooden inlays, the gilded ceilings and Isabella's secret garden still tell us a lot about the woman, who - even during her lifetime - was described as "The First Lady" of the Renaissance.

The proposed tour also includes a visit around the rest of the Ducal Palace, where Isabella's relatives used to live in the splendor of the Renaissance.
